Mr. Stokes:

[redacted] this office informed me of your 17 November call regarding the possibility of acquiring two excess Burroughs B6930 systems from the Agency inventory. (These systems have become available with the re-direction of an Agency program). Attached, for your review, is a list of all available Burroughs equipment. All systems on the list are available immediately and are currently installed in a contractor facility (TRW) in the Torrance, California area.

If any of these B6930 configurations meet your requirements, please let me know and we can proceed from there. Please do not feel constrained at this stage by the configurations as listed. It may be possible to intermix equipment to meet your special configuration requirements. Also note that items labeled miscellaneous -- pg 6 -- are also available. If you have any questions, please do not hesitate to call me on [redacted]
